

# WOOD POLE STAPLES

## TVI - Insulated Fishhook™ Staples

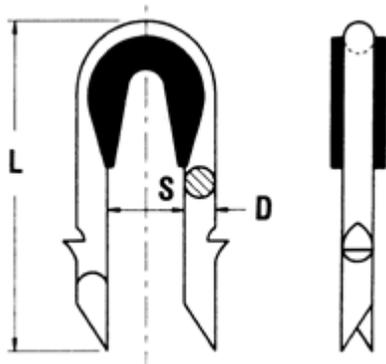

Sectioned example of fishhook staple shows holding power of patented fishhook design.

### Unique Features of TVI-Insulated Fishhook Staples

- Securely holds grounding and bonding wires while insulating the wire from the staple.
- Insulation eliminates the sparks that cause RFI (Radio Frequency Interference) and TVI (Television Interference).
- Insulation prevents crossarm and pole fires caused by current flowing through the staple.
- Insulation prevents corrosion caused by contact between galvanized staple and aluminum ground wire.

### Features Common to All Lindsey Fishhook Staples

- Fishhook design holds staple in position even under extreme weather variations (See photo at left).
- Prevents staples loosening caused by ground wire flapping in high winds.
- Discourages theft of copper ground wire because fishhook staples are very difficult to remove with ordinary hand tools.
- Eliminates wasted manpower to re-drive loose staples.
- Packed in 5 pound and 50 pound boxes for ease of use and to eliminate glove damage caused when linemen reach into a keg of sharp pointed staples.
- Used extensively by utilities for over 40 years.
- U.S. Patent Nos. 4,697,045 and D298,916

Notes:

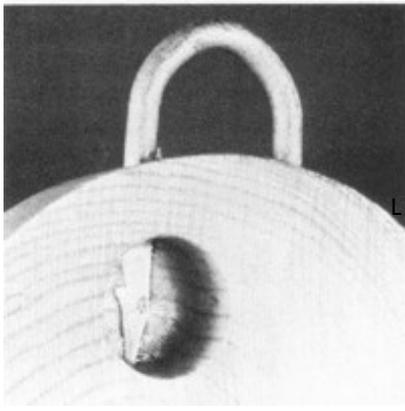

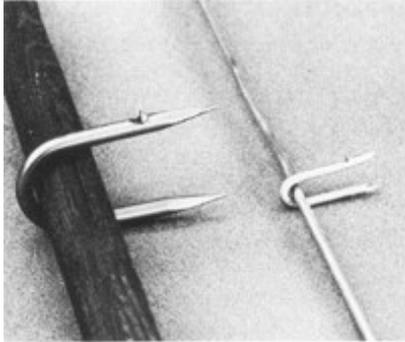

(1) SLASH POINT, FISHHOOK STAPLE DESIGN

LINDSEY PART NO. (*See below)	FINISH	DIMENSIONS (INCHES)		SOLID CU WIRE SIZE RANGE	NOTES
		L	S x D		
10404	GALV. WIRE	1.25	5/16 x .162	#4, 6, 8	(1)
10408	GALV. WIRE	1.5	1/4 x .148	#6, 8, 10	(1)
10410	GALV. WIRE	1.5	5/16 x .162	#4, 6, 8	(1)
10414	GALV. WIRE	2	5/16 x .162	#4, 6, 8	(1)
10444	HOT DIP GALV	1.25	5/16 x .162	#4, 6, 8	(1)
10448	HOT DIP GALV	1.5	1/4 x .148	#6, 8, 10	(1)
10450	HOT DIP GALV	1.5	5/16 x .162	#4, 6, 8	(1)
10454	HOT DIP GALV	2	5/16 x .162	#4, 6, 8	(1)

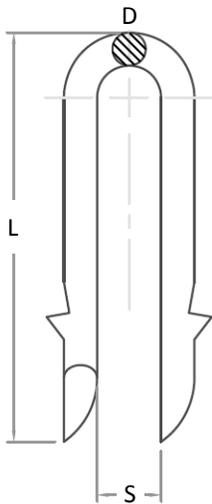

\* When ordering, add -5 suffix for 5 pound box, or -50 for 50 pound box. For example, part number 10204-50 is a 50 pound box of part number 10204 staples.
